E-mail: [simen@frivannsliv.no](mailto:simen@frivannsliv.no)

More details about the Fiskecamp can be found here:  
<http://www.nautnes.com>

## 2. Boats

All the scouting boats are located in Nautnes. Boatrental is included in the 45eur pr night.

## 3. Fishing Licenses

Teams that fish or simply dive in Norwegian waters during the training sessions (any time before the competition) dosen't need Federative fishing license.

Competition and practicing areas will be at Frivannsliv net page in may 2015

In Norway you have to stay away 100 meters distance from any fishing nets or private docks or houses in the coast line. Each boat must have visible minimum 50x50cm blue and white diver flag on the boat.

Organization is not responsible for any inconvenience caused by Coast Guard or authorities controls if competitors do not obey the existing Norwegian legislation.

14 days before the competition session inside of the competition zones it is forbidden to train or do examining activities using spearguns, scuba diving breathers or underwater scooters.

Competition areas will be closed the day before the competition session (24.9

Thursday 21 pm) and it is totally forbidden to go inside of the competition areas during the Friday 25.6 or Saturday 26.9

It is forbidden by the law to carry spearguns uncovered in the city! Please be prepared with bag for guns, and always keep guns covered when in public places.

## 4. Out in the Sea

### 4.1. Maps

The competition areas are some places VERY SHALLOW and have many underwater rocks. Be very careful when driving and follow the map constantly. Confirm that the boat is insured or you have an agreement with the owner in case of accident

### 4.2. Weather and water conditions

Dress warmly as conditions may change rapidly (fog, storm) or if you face engine failure or hit rocks. Also thick suits (7mm) are recommended, due to low water temperatures.

Make sure that you know your location all the time and have mobile phone and necessary phone numbers with you (emergency number is 112).

There is a strong tide in the sea area in front of Bergen

### 4.3. Wrecks and ammunition

The front of Bergen is not packed with wrecks. But if you see them. They are protected by the law, so remember never to do any damage to wrecks. If unexploded ammunition (bombs, grenades, etc.) is found on the seafloor, do NOT touch it. In such case, please take the coordinates up and inform the organization after the day.

### 4.4. Water traffic

Big passenger ferries' waves and surge can be big. When you anchor your boat close to island and rocks, very good and cheap equipment for avoiding collisions is rubber rope (about 5m). Apply rubber rope between the anchor and the anchor rope and your boat will be safe during scouting. When anchoring, choose location so that boat will not hit rocks or land. After anchoring check it by diving.

As competition zones are close of the Bergen city there are many leisure boats around. You should always keep one person in boat out of the water to monitor the other scouting. When scouting, buoy must be used in all cases. It is also recommended that the buoy is attached to the diver when in the water.

## 5. Equipment and spare parts supply and service

### 5.1. Spearfishing equipment

The Norwegian spearfishing equipment supplier Frivannsliv will have a booth at the competition hotel one week before the competition. You can get weights and spare parts, fins, guns, suits etc. there.

#### 5.2. Boat Equipment

Boating equipment (spare parts, GPS, sonars etc.) can be found from boating stores, in city of Bergen.

#### Medial Care

First Aid (Doctor and emergency boat) is available in competition. All competitors must have a medical insurance. If medical help is needed before actual competition there are several private hospitals in Bergen, For emergency situations call 112

## 6. Important Phone Numbers

112 – PUBLIC EMERGENCY NUMBER
